

Allyson Walters

- Graduate of Oklahoma State University: Bachelor of Science degree in Interior Design (1997)
- Prior to working with the Corps of Engineers, she worked for MATRIX A/E/P in Tulsa, Oklahoma, as the interior designer on several school and medical facilities.
- Joined the Fort Worth District Corps of Engineers in March of 2004 as the District's primary Interior Designer. Since that time she has worked on a large number of projects at various Military Installations (barracks, dining facilities, administration facilities, as well as fire stations, deployment facilities, etc.)
- Allyson has been instrumental in assuring the District's facilities are designed to be 'green', and has an interest in developing the District's knowledge and practice of sustainable practices and the use of LEED.
