FEBRUARY PROGRAM

The current EO and EISA as it relates to the schematic building design

Rachael Green – Huitt-Zollars, Inc.

Rachael Green runs the Sustainability program at Huitt-Zollars, Inc. Mrs. Green is a LEED AP BD+C and is currently serving her second term as a Board of Director for the USGBC North Texas Chapter as well as being involved with multiple committees. Mrs. Green is a requested speaker to both professional and non professional groups and organizations of various kinds on green and sustainable strategies including detailed explanations of the LEED Rating System. Mrs. Green has experience in LEED Certified projects ranging from basic Certification to Platinum. Mrs. Green is actively involved in over 40 LEED registered projects ranging from private to public sector projects including multiple government agencies. Mrs. Green has received multiple awards for her sustainable projects including: the 2007 – Environmental Vision Award , the 2008 – Greater Dallas Fort Worth Area Environmental Vision Award, the 2008 State of Texas Environmental Vision Award, the 2008 North Texas Corporate Recycling Association Green3 Award and the 2009 Working for Clean Air Award.

MEETING DETAILS

February 7, 2011

RSVP by February 2

Please note: We have officially returned to the Fort Worth Petroleum Club for our regular monthly meetings of the Fort Worth Post!

TIME:

- 10:30 a.m. Board Meeting
- 11:30 a.m. Registration
- 12:30 p.m. Lunch and Program

LOCATION:

Carter & Burgess Plaza Bank Building Petroleum Club | 39th Floor
 777 Main Street | Fort Worth, Texas

COST:

- \$25.00 Full Buffet
- \$20.00 Young Members

PARKING:

- \$2.50 On-Site Parking
 (with validation)

RESERVATIONS:

Angie McCullough | 817.284.9400
AMccullough@CMJengr.com

Please remember the guidelines regarding reservations. If you make a reservation, you are required to pay for your meal.

2011 FORT WORTH CHAPTER COMPETITION

Do you want to help with the 2011 MATHCOUNTS Competition?

We are looking for volunteers for the 2011 MATHCOUNTS Competition. The Fort Worth TSPE Chapter coordinates this annual chapter competition where 6th, 7th and 8th grade students challenge their mathematic skills. After several months of coaching, participating schools select students to compete individually or as part of a team in our local chapter competition. This year our chapter competition will be held at the Lockheed Martin Aeronautics Facility in Fort Worth on February 5, 2011.

We need volunteers to help the event run smoothly on the day of the competition. Volunteers will help proctor & grade tests. The commitment time is around half of a day starting around 8:00 a.m. A light breakfast and lunch will be included as well as a souvenir t-shirt.

This is a great opportunity to meet and network with other engineers as well as introduce the engineering community to the students involved at the competition. This competition cannot be successful without your help.

If you and/or your friends are interested in participating in this fun and exciting event, please contact Ben Pylant (bpylant@halff.com) or David Burkett (dburkett@halff.com). Please let us know if you would prefer to be a proctor or grader. We can also be reached at 817.847.1422. Please do not hesitate to call if you have any questions.

Thank you for your support!

JOINT ENGINEER TRAINING CONFERENCE AND EXPO

May 24-27, 2011

Gaylord Texan Resort and Convention Center
Grapevine, Texas

From: <http://posts.same.org/jetc/>

Co-hosted by SAME HQ and the Fort Worth Post, the 2011 JETC features six technical tracks addressing timely issues affecting the A/E/C, facility management and environmental fields.

- Track 1: Contingency Operations
- Track 2: Installation management
- Track 3: Design & Construction
- Track 4: Water resources
- Track 5: Energy
- Track 6: Acquisition

The technical program lays the foundation for the conference and is supported by a robust, informational expo area, exciting technical tours and ample networking and social events.

Expo

The 2011 JETC Expo area is set to be one of the largest ever, with companies large and small exhibiting. In addition, each of the uniformed services will be represented and will feature networking lounges for the relaxation and networking pleasure of attendees.

Throughout the conference, breaks, lunches, prize drawings and other events will take place in the exhibit hall. You'll also enjoy numerous exclusive exhibit hours, when no other events are scheduled—so you can take full advantage of the networking opportunities, as well as the product demonstrations.

SAME VISION

“To be a premier global engineering organization leading to the professional and personal growth of all members in support of military readiness and the development of solutions to national security challenges.”

SAME MISSION

“To promote and facilitate engineering support for national security by developing and enhancing relationships and competencies among uniformed services, public and private sector engineers, and related professionals and developing future engineers through outreach and mentoring.”

Fine print...

Each firm will be featured in the month indicated on the schedule above. Prior to the month in which your firm will be featured, you will submit an article for the newsletter describing your firm and its capabilities and experience.

In addition, each firm will be entitled to make a two minute presentation at the regular meeting. Historically firms have chosen to bring a raffle prize (benefiting the SAME Scholarship Fund) to the meeting when they make a presentation.

Founded in 1898, Burns & McDonnell Engineering Company is a firm with strong experience with the military and DOD. The experience began in 1942 with the design of the world's largest B-29 airfield at that time, the Smoky Hill Army Airfield in Salina, Kansas. Since that time we have served the US Military on a continuous basis. Today, Burns & McDonnell is supporting the DOD in a wide variety of projects including planning, design, and construction of facilities, and managing complete programs, developing comprehensive master plans, and complex HTRW, civil works, and MILCON projects. Currently, Burns & McDonnell operates under more than 20 DOD IDIQ agreements for the US Army COE, US Army, National Guard Bureau, US Navy, General Services Administration, US Air Force, and the National Aeronautics and Space Administration.

Burns & McDonnell maintains a professional staff of over 3000 employee owners located in 20 offices nationwide, including over 200 employees in Texas in our Dallas, Fort Worth, and Houston offices. 2011 marks our 25th year of being employee owned, and these 25 years have played a formative role in how we continue to serve our clients today. In the highly competitive world of engineering, architecture, construction, environmental and consulting solutions, our ownership mentality sets us apart. We all share a commitment to client service that means we never stop until the job is done right. After all, what would one expect from an owner.

Burns & McDonnell has Registered Professional Engineers, Architects, Geologists, and Surveyors in nearly every US State and Territory, including Texas.

For further information, please contact the following:

CDM is a consulting, engineering, construction, and operations firm delivering exceptional service to public and private clients worldwide. With over 4,600 professional and support staff in more than 100 offices around the globe, including six Texas based offices. Founded in 1947 with a focus on environmental services, CDM has steadily expanded and diversified into a multi-disciplined firm offering environmental and infrastructure capabilities to meet new and emerging client needs. CDM has a long history of working with USACE and other Federal agencies in performing on projects of critical importance. Recent CDM successes include:

Design-Build of Base Realignment and Closure/National Capital Region Relocation Administration Facility, Andrews AFB, MD – CDM is completing the design-build delivery of a five-floor, 380,000 SF office building that will house Defense Department tenants relocating from facilities across the Washington, D.C. area which are slated for closure. The \$114M facility will meet LEED Silver, and very likely Gold, certification requirements and will include anti-terrorism/force protection provisions, sensitive compartmented information facilities (SCIFs), and all civil work and utilities.

Hunters Point Shipyard Innovative Technologies – CDM, in support of NAVFAC, is conducting a suite of treatability studies that includes hydraulic fracturing to enhance distribution of a long-lived solid phase amendment, EHC[®], which couples in situ bioremediation (ISB) with zero-valent iron (ZVI) to treat contamination in the source area and dissolved phase plume and thermally-enhanced ISB/ZVI using thermal conduction heating in the source area.

Georgia/Alabama Dam Breach Analyses and Operation Plans – CDM, as the lead partner of a JV, recently completed the dam breach analyses to the Mobile District in updating Emergency Action Plans for multiple dams in Georgia. In addition, CDM is completing restricted reservoir operations plans for dams in Georgia and Alabama that include evaluation of project constraints, spillway gate construction constraints, and structural and geotechnical foundation impacts.

For additional information on CDM's capabilities or if you have interest in teaming with us please contact Scott Stone at 214.346.2800 or stonesw@cdm.com.

Founded in 1946, CH2M HILL is a global full-service consulting, design, construction, and operations firm.

With \$6.3 billion in revenue and more than 23,500 employees worldwide, CH2M HILL delivers innovative, practical, sustainable solutions—helping clients develop and manage infrastructure and facilities that improve efficiency, safety, and quality of life.

Throughout our 65 years in business, we have served federal, municipal, state, and private-sector clients in water, energy, environmental, transportation, facilities and resources.

We provide full-spectrum strategy, planning, design, design-build, operations and maintenance, and program management services that meet the specific needs of our clients and their communities. The people of CH2M HILL are forward-looking, innovative experts and leaders who perform at their best. We help our clients succeed through collaboration, careful cost management, and high levels of quality and value maintained on every project, large or small, around the globe.

The firm has been named to FORTUNE's "100 Best Companies to Work For" five times. In 2009 and 2010 Ethisphere Institute named CH2M HILL to its list of World's Most Ethical Companies Lastly, in 2009, we were ranked as the 5th largest engineering firm in Texas.

CMJ Engineering, Inc. (CMJ) is a registered small business (CCR) recognized as an industry leader in providing geotechnical engineering and construction materials testing in North Central Texas. CMJ provides a specialty engineering consulting service focusing on soils and geology, foundation engineering, and related geotechnical and geological engineering. In addition, CMJ provides high quality construction materials observation and testing services.

CMJ is extremely proud of its past performance and excellent working relationship with surrounding municipalities, school districts, professional consultants, architects, and structural engineers. CMJ has worked with many of SAME's Sustaining Members on IDIQ projects from the Corps and has performed numerous TxDOT projects on teams headed by many of SAME's members. Other notable experience includes earthen dams, levees, flood structures, bridges, high-rise buildings, and distress investigations.

The overall mission of CMJ is to provide high quality geotechnical engineering and construction materials observation and testing services to clients, to serve the clients with timely and cost-effective services, to provide a profitable atmosphere to allow financial compensation for employees and to provide an atmosphere for employee growth from the viewpoint of technical information, management skills, and marketing endeavors.

With a staff of 23 highly motivated individuals, CMJ Engineering, Inc. offers a high degree of knowledge, professionalism, quality workmanship, and moral and ethical fiber that are second to none. The significant size of our organization allows CMJ to fulfill and easily absorb a variety of projects in our regular work flow without undue hardship.

As a result of our extensive and diverse level of experience, our staff is sensitive to the budget constraints in the present economic environment and work diligently to provide value engineering services. CMJ's main focus is client satisfaction, particularly with respect to providing cost effective solutions while providing recommendations for facilities the client will be proud of.

Conti is a project delivery company that provides program management, engineering, and construction services across the United States and internationally. We operate in the infrastructure development, building, homeland security, environmental remediation, water, power and industrial, and renewable energy markets for federal, public, and private sector clients. As Federal contractor for over 15 years, we have executed projects for 12 USACE Districts, the Navy and the Air Force around the nation and overseas. Founded in 1906 on traditional principles and values, we have been at the forefront of technological advancements in the construction industry for best value design/build and turnkey execution of highly complex projects.

We are a company with entrepreneurial spirit, responsive hard-working people, significant self-perform resources, and over 100 years of experience delivering on our promises.

Walton Construction – a CORE Company, LLC (Walton|CORE) is a national general contractor that recently joined the CORE family of companies. CORE, founded in 1937, has a proven track record of providing exemplary service to a wide range of clients in the education, municipal, energy, and commercial markets throughout the United States. With over 1,000 employees across the nation, CORE's projects exceed an annual revenue of \$550 Million. The addition of Walton|CORE to the CORE Construction Group combines the locations and expertise of two already successful organizations. Walton|CORE's team of qualified employees has 25 years of experience in General Contracting, Design – Build, and Construction Management and a long history of successful Federal projects.

Bill Petty, President of Walton|CORE, will oversee the continued growth of our Federal Marketplace. Currently, Walton|CORE is working on seven different military installations. Walton|CORE has completed \$650 Million and has been awarded over \$1 Billion worth of contracts.

Inherent in our approach to every successful project is a commitment to safety and quality. We identify and mitigate risk through our in-depth pre-planning process, rather than being reactive and responding to things gone wrong. Our proven craftsmen and skilled project management professionals understand each project thoroughly, achieving innovative ideas to ensure quality, cost and schedule objectives.

For the past 30 years, CP&Y, Inc. has provided innovative and cost-saving solutions to our clients. We deliver a full range of professional services that satisfy client needs for progressive planning, environmental evaluation, engineering, design, consulting, program management and construction management. With over 170 professionals in 9 offices in Texas, Oklahoma, and Arizona, CP&Y maintains the size, stability, and resources to take on a wide range of projects successfully.

These projects range from small, short-term solutions to complex, ongoing civil and public works facility management programs that all share a common focus: our driving philosophy of providing exceptional client service and building long-term relationships. As a reflection of our commitment to our customers, more than 85% of our projects are with repeat clients.

CP&Y provides engineering designs for innovative projects, both locally and internationally for the following project types:

- Water
- Wastewater & Reuse Systems
- Waste Management
- Environmental Management & Planning
- Transportation
- Transit & Aviation
- Energy
- Security

Our commitment to high-quality work and innovative ideas results in award-winning designs for our clients locally, nationally and internationally. Some of our most recent awards include:

- Enhanced Leachate Recirculation Facility, Denton, Texas, Gold Medal Winner, Texas Council of Engineering Companies, 2011
- Central Regional Wastewater System Improvements, Gold Medal Winner, Texas Council of Engineering Companies, 2011
- Hefner Water Treatment Plant Liquid Oxygen and Ozone System Improvements, Silver Medal Winner, Texas Council of Engineering Companies, 2011
- IH 35 Interchange at SH 6/Loop 340, Silver Medal Winner, Texas Council of Engineering Companies, 2011

For more information on CP&Y and to view some of our sample projects, please visit www.cpyi.com.

Founded by Cristina Criado, in 2001 Criado & Associates Inc. (CRIADO) operates as a full service civil engineering design and land surveying firm that specializes in Municipal, Transportation and Land Development, providing quality consulting services to both the public and private sectors.

CRIADO has achieved a high standard of quality through maintaining a highly experienced staff to provide the expertise to develop and manage a successful project. The average tenure of Criado Professional Engineers is about 20 years.

CRIADO has grown from 4 employees in 2008 to 20 in 2010. We attribute our growth and success to the relationships we build with our clients and the excellent one on one customer service we provide.

CRIADO has worked over the past 9 years with many clients on a wide variety of projects; these clients include: Dallas County Public Works, City of Dallas Park & Recreation, City of Dallas Public Works & Transportation, City of Dallas Water Utilities, City of Fort Worth, City of Richardson, City of Duncanville, City of Allen Parks & Recreation, City of Plano, Dallas Independent School District, Dallas County Community College District, Dallas Housing Authority, North Texas Tollway Authority and DART among others.

CRIADO most recent awarded projects as Prime and Subconsultant includes: Prime Position in Dallas Water Utilities; One Section of the Integrated Pipe Line of the TRWD as Subconsultant to Parsons; LBJ (I-635) Managed Lines Utility Relocations as Subconsultant to Cobb Fendley and DART Cotton Belt Utility Relocations as Subconsultant to URS.

CRIADO promotes and believes in investing professional expertise, volunteering time and financial resources to address the education of students that have an interest in civil engineering. To that extent Criado has joined efforts with local, state and national organizations, charities and government bodies to participate in the rewarding feeling of assisting young minds.

CRIADO is a certified Woman-Owned DBE and is participant in the 8a program of the SBA. Other certifications include: M/W/DBE by NCTRCA and HUB by the State of Texas.

2010 IN REVIEW

Last year was a busy one for the Fort Worth Young Members group. Sarah Cole, the Fort Worth Post's 2010 Young Member Chair, put together an exciting year packed with social events along with educational lunch-n-learns. The year kicked off with a Greet the Troops which allowed SAME members to thank our servicemen and women as they traveled through DFW airport on their way home for their two week R&R from Iraq and Afghanistan. Mid-way through the year the Young Members hosted a happy hour for the entire post. The United States Army Corps of Engineers Fort Worth District Commander, Col. Richard Muraski, agreed to attend the happy hour event. This helped draw more people and allowed the Younger Members to interact with the more senior members. One of the most successful events was a lunch-n-learn titled "Demystifying the Uniform". A retired Colonel spoke to 35 Young Members about how to address military personnel and the rankings for all branches of the military. The year ended with another Young Member sponsored happy hour. The GSA Regional Commissioner of PBS Regions 4 and 7, Col. Jim Weller (ret.) and Director of Design and Construction of the Greater Southwest Region, Col. Charlie Hart (ret.) attended the social event.

With the intent to develop Young Member involvement and increase the membership base, the Fort Worth Post has been providing relevant, interesting, and enjoyable events. So Young Members can get to know one another on a higher level and to foster deeper Post participation, they are encouraged to sit together during the monthly lunch meetings. Beginning last year, regular newsletters were sent out solely to the Young Members. These newsletters highlighted a few Young Members and their interests and career pursuits; the newsletters also updated members with upcoming events within our Post and applicable industry events. All these things combined created a great year for the Fort Worth Post's Young Members!

As the Fort Worth Post's 2011 Young Member Chair, my hope is to continue to build on the momentum created in the Young Member group these past few years. We will continue to offer career-developing events, social activities, and educational tours to assist our members in reaching their goals and to have fun getting there.

Members of all ages welcome here!

ABILENE FIELD POST

TBD

MEETING MINUTES

3 January 2011

SUBJECT: Minutes of SAME Fort Worth Post Board Meeting

- The Board convened on 3 January 2011 with Roxanne Pillar, Greg Vowels, Sarah Cole, COL Lem DuBose, Eric Canales, J.B. West, Andy Cueto, Meloni McDaniel, Lisa Monroe, Mike Doris, Mark Simmons and Jimmy Baggett attending.
- Minutes of the 1 November 2010 Board meeting were approved.
- The treasurer report indicates a balance of \$25,474.04 in the checking account and \$16,671.75 in a savings account. Total operating assets for the Post \$42,145.79. The Raymond Losornio Memorial Scholarship Fund inviolate principal is \$87,000.00. The Education and Mentoring Account has been invested with a balance of \$103,796.65. The total Post Education and Mentoring Assets are \$131,143.92.
- Individual membership is 643 with 197 members not included in our 104 Sustaining Firm membership. We currently have 66 Young Members.
- Committee reports were presented. Meloni McDaniel reported on Young Member activities. Eric Canales reported on Communications Committee activities. Andy Cueto reported on Program activities. Lisa Monroe reported on Awards actions. J.B. West will be nominated for the mentoring award, and Fort Worth Corps of Engineers will be nominated for a Public Agency recognition. COL Lem DuBose reported on Education Committee activities. A relationship with Diamond Hill-Jarvis High School has been initiated. Roxanne Pillar stated Engineer Week activities will occur during 20-26 February. Greg Vowels and COL Lem DuBose will pursue an Abilene Field Chapter potential. Mike Doris reported on the 2011 National JETC activities.
- Young Member Committee will conduct two Lunch-and-Learn, two social networking events and two field trip visits during the year.

DEDICATED TO THE NATIONAL DEFENSE

Jimmy D. Baggett, Post Secretary

NEWSLETTER SUBMISSIONS

The SAME Fort Worth Post news is published monthly for the benefit of SAME individual members and sustaining member firms. If you have questions/comments or wish to submit an article, please contact Jenifer Batchelder at JBatchelder@Kleinfelder.com. All submissions are due two weeks before the next monthly post meeting. Articles may be submitted in MicroSoft Word. If you wish to include a logo or graphic, please provide this in any graphic format (i.e. jpg, tiff, eps, png) to maintain quality.
