"RECOVERING MILLIONS FROM THE WASTE STREAM"

Presented by: Mike McCarthy, PG LEED® AP

Presentation will discuss how Sustainability practices improve enterprise -wide financial and competitive performance. How to make it happen via "The Natural Step Method". How Sustainability relates to EO 13514. Finally Creative Strategies for 3-5 year sustainability management plans will be presented as a Case Study for the Defense Commissary Agency.

Mike is the Sustainability Group Leader for Reynolds, Smith & Hills, Inc.'s Aerospace & Defense Program.

He is a Professional Geologist, LEED Accredited Professional and a Penn State Geologist. He is currently pursuing his MBA in sustainability at Antioch University New England in Keene, New Hampshire. He advocates for and helps clients realize the economic benefits of sustainability. His sustainability clients include NASA's Kennedy Space Center, United Launch Alliance, Defense Commissary Agency and local government entities.

MEETING DETAILS

July 5, 2011

RSVP by June 30

TIME:

- 10:30 a.m. Board Meeting
- 11:30 a.m. Registration
- 12:30 p.m. Lunch and Program

LOCATION:

Carter & Burgess Plaza Bank Building Petroleum Club | 39th Floor
 777 Main Street | Fort Worth, Texas

COST:

- \$25.00 Full Buffet
- \$20.00 Young Members

PARKING:

- \$2.50 On-Site Parking (with validation)

RESERVATIONS:

Angie McCullough | 817.284.9400
AMccullough@CMJengr.com

Please remember the guidelines regarding reservations. If you make a reservation, you are required to pay for your meal.

SAME Fort Worth Post is now on Facebook!

Fine print...

Each firm will be featured in the month indicated on the schedule above. Prior to the month in which your firm will be featured, you will submit an article for the newsletter describing your firm and its capabilities and experience.

In addition, each firm will be entitled to make a two minute presentation at the regular meeting. Historically firms have chosen to bring a raffle prize (benefiting the SAME Scholarship Fund) to the meeting when they make a presentation.

Farnsworth Group, Inc. is a full-service engineering and architecture firm with nearly 300 staff members located nationwide. Our company was founded in the 1890s, after a local land surveyor traveled from community to community providing survey services for municipalities. Farnsworth Group's earliest employees operated under the same premise that still exists today: "The client is our first priority."

Today, Farnsworth Group is an employee-owned company and continues its rich history of providing consulting services. The firm is an Engineering News Record (ENR) Top 500 Design Firm, offering engineers, architects, surveyors, scientists, technicians and support personnel that provide solutions to our clients' challenging problems. Our services include civil, transportation, petroleum pipeline, environmental, mechanical, electrical, plumbing, structural, and municipal engineering, architecture and surveying.

In addition, Farnsworth Group is recognized as one of the pioneers in sustainable design, building commissioning and LEED consulting, having been instrumental in crafting commissioning and LEED guidelines and processes for the U.S. Green Building Council (USGBC). The firm has more than 60 LEED Accredited Professionals encompassing every major discipline.

We are especially proud of the services we provide to the federal government, and in particular our military. Our firm's roots have grown deep into the federal marketplace, having worked on more than 60 projects for the federal government. Our passion for federal agencies and our military extends far beyond simply completing projects; we believe we have an obligation to give back to our service agencies. Farnsworth Group is a strong supporter of the Society of American Military Engineers (SAME) organization. The firm is a sustaining member of 9 SAME posts, and many of our team members are involved in committees or hold director positions.

Farnsworth Group's Julie Fisher, who is located in Dallas, is a member of the SAME National Board and will be a member of the SAME National Executive Committee for 2011-2012.

For more information on Farnsworth Group, or to discuss possible teaming opportunities, please contact Julie Fisher, Director of Business Development at 972.899.1609 or via email jfisher@f-w.com.

HydroGeoLogic, Inc. (HGL) is an employee-owned environmental consulting firm with over 24 years of experience in providing innovative and cost-effective solutions to government clients. In January 2012 HGL will be celebrating its silver anniversary. HGL's qualifications and experience reflect the capabilities of our professional staff in remediation, construction, military munitions response, A-E services, water resources, environmental law and policy, energy audits and utilities surveys, and GIS and data management support.

HGL is a known leader in the environmental consulting field. Indeed, since 2000, Engineering News Record has ranked HGL among the nation's top 200 environmental firms. HGL's quality work has resulted in repeat business and excellent ratings from the USACE and other clients, and our demonstrated experience and past performance mitigate operational and contract management risks for our clients.

Among HGL's nationwide locations are offices in Austin and San Antonio. Our major clients in the Southwestern Division include the USACE Fort Worth, Little Rock, and Tulsa Districts; the Air Force Center for Engineering and the Environment; the National Aeronautics and Space Administration, the Department of Justice, and various private clients. In the Fort Worth District alone, HGL has assessed and remediated FUDS, BRAC, and IRP sites, investigated bombing ranges, modeled groundwater in regional aquifers and under military bases, provided regulatory analysis, designed information management systems and managed FUDS records, conducted public involvement activities at active and FUDS sites, and developed site operations history reports.

HGL is proud to have supported federal clients nationwide for more than 24 years, and to have participated in the Fort Worth SAME Post for nearly a decade. For more information about HGL, contact Bruce Little, Army Client Manager, by telephone at (402) 505-9572, or Diane Glass, P.E., PMP, Vice President, Air Force Client Manager, at (210) 348-8778.

BIM Services....Information Management Solutions....Visualization

iM STUDIOS, LLC was founded as an independent Building Information Solutions and Data-Network Management consulting firm providing Building Information Modeling (BIM), Database Network Development, and Information Management Solutions for more efficient and cost-effective Systems Implementation, Integration, and Delivery in the Design, Construction, and Facility Operations and Management Industries. We specialize in imaginative and innovative solutions proactively advancing the use and integration of computer generated, virtually built environments that are 3D, interactive, and information rich. We are San Antonio-based, supporting major projects locally, regionally, nationally, and internationally in the Federal Government, Department of Defense, Commercial, Municipal, Education, and Healthcare market sectors.

iM STUDIOS, LLC brings unequalled expertise, including:

- Building Information Modeling Services
- Information Management Solutions
- Visualization – Virtual Presentations
- Design-Build BIM & VDC Integration
- Program Management & Design Services
- Life Cycle Facility Management Solutions

iM STUDIOS, LLC has assembled the unique and diverse talents of highly qualified principle practitioners who continually strive to develop, implement, and realize the full potential of 3D Intelligent Modeling and Information Management Implementation/Integration according to the needs of our clients. We view the BIM as “virtual construction”, with a built-in information database acting as a shared information repository. The BIM generates a powerful platform to more efficiently and effectively manage facility operations and maintenance with remote access control, monitoring, and management capabilities.

ITSI, A Gilbane Company--

Operating as a wholly-owned subsidiary of Gilbane Building Company, ITSI supports worldwide initiatives for construction, fuels, and environmental projects, serving Department of Defense (DoD) programs and other federal government agencies including the Department of Energy, the USEPA and GSA. Together, ITSI and its parent company, Gilbane, function as an international, \$3 billion dollar construction and remedial services firm. Our combined companies have 2,350 multidisciplinary personnel, which include LEED-accredited professionals operating from 53 offices worldwide, to deliver rapid response services. As a member of the US Green Building Council, ITSI provides innovative and sustainable solutions for executing multiple, concurrent task orders (TOs) across four continents.

Whether it is design-build construction of military facilities, repair or upgrade of fueling facilities; or treatment, packaging and shipping hazardous or radioactive wastes, our main focus is customer satisfaction and we are prepared to go wherever our customers need services.

For the USACE, Ft. Worth District, ITSI currently holds two Indefinite Delivery/Indefinite Quantity (ID/IQ), multiple award task order contracts (MATOCs) for performing infrastructure and design-build construction and repairs. Projects include design and construction for healthcare, land ports of entry (LPOE), airport, and airfield facilities both inside and outside the Continental United States.

This past April, ITSI completed design-build services to support of the USACE Ft. Worth District, for a new Medical Education and Training Center (METC) Building 5. This new building is 47,400 square feet with all required support equipment and force protection features. The facility provides instructional training for six major medical areas; Orthopedics, Respiratory Therapy, Anatomy and Physiology Laboratory; Cardiopulmonary Laboratory; Cardiovascular and Eye/Ophthalmic. The facility qualifies for a LEED Gold rating.

Jacobs Engineering Group Inc. is one of the country's top DoD contractors and one of the world's largest engineering and construction firms. For more than 70 years we have supported the DoD with technical competence and expertise across all major military programs. Our global network includes more than 170 offices in 25+ countries with more than 55,000 employees and revenues of nearly \$10 billion. We have operations in North America, the United Kingdom, mainland Europe, India, Australia, Africa, South America, and Asia.

We employ more than 5,700 employees in Texas — with more than 800 based here in the DFW Metroplex. Locally, we provide architectural, engineering, planning and design/build services for federal, higher education, aviation, retail facilities, as well as transportation engineering, water resources planning and design, surveying, and environmental planning. We also offer expertise on environmental restoration and remediation, sustainable design and energy conservation, program management and construction management, and facilities and infrastructure asset management.

For more information contact Bob Besancon at 817.735.7020, Robert.besancon@jacobs.com, or visit www.jacobs.com.

Kellogg Brown & Root Services, Inc (KBR) provides services in engineering planning and design; program, project, and construction management; and operations and maintenance support. We utilize an integrated, multidisciplinary approach to project delivery to produce appropriate solutions for our customers.

Driven by excellence in execution, KBR is committed to ensuring the safety of our employees, while giving back to the communities in which we live and work. We deliver any project, any time, in any environment for the benefit of our customers, shareholders, employees, and the communities we serve.

History, Size, and Locations:

- Founded in Texas in 1901 by the Brown brothers
- Currently more than 35,000 employees worldwide with a presence in over 45 countries
- Texas offices are in Houston, Dallas, Fort Worth, Austin, and San Antonio

Today, KBR is considered one of the world's premier engineering, construction, and services companies. We deliver a wide range of services through our Downstream, Gas Monetization, Infrastructure and Minerals, International Government and Defense, North American Government and Defense, Oil and Gas, Power and Industrial, Services, Technology, and Ventures business segments, and differentiate our self as a technology-driven engineering, procurement, and construction (EPC) company. In North Texas, we excel at providing the following services:

- Program and Construction Management
- Highway and Bridge Design
- Aviation Infrastructure
- Water and Wastewater Design Services
- Facilities
- Job Order Contracting

As KBR makes its way through its second century in business, it can look back upon a solid foundation as it strives for future success.

Kiewit Corporation is one of North America's largest and most respected construction, engineering and mining organizations. With more than \$10 billion in revenue, this privately held, employee-owned company operates with a workforce including 10,300 core staff and more than 14,400 skilled craft workers. Kiewit consistently ranks as a FORTUNE 500 company and in the top five among Engineering News-Record's Top 400 Contractors.

With its beginnings tracing back to 1884, Kiewit offers services in a variety of markets including transportation, heavy civil, building, water resources, power, oil and gas, and mining. Our culture of safety, quality and "on-time on-budget" construction combined with our industry-leading training programs prepare long term seasoned managers to lead our projects to successful completion. As an employee-owned company, we focus on long-term goals and client relationships.

Trust your next project to a company with an extraordinary record of success.

- Texas-Border Fence Segments O-11, O-14, O-15, O-16, O-21, O-21A and M-2C
- Texas-Proctor Lake Tainter Gate Hoist Repair
- Texas-Belton Lake Sluice Gate Remove & Replace
- New Orleans-WBV-90 GIWW-West Closure Complex Pump Station
- New Orleans-LPV-145 Levee Wall
- New Orleans-WBV-09a Pump Station and Levee Improvements

For more information visit us at Kiewit.com.

Kimley-Horn is one of the nation's most comprehensive and well-respected engineering and land planning firms. Founded in 1967 as a transportation civil engineering firm, Kimley-Horn has grown to more than 1,500 staff in more than 55 offices in the United States. The firm offers full services in a wide range of disciplines—aviation, the environment, intelligent transportation systems, forensic engineering, landscape architecture, land planning, transit, transportation, roads and bridges, urban redevelopment, water resources, and wireless communications. Kimley-Horn's multi-disciplined civil engineers and landscape architects understand what it means to be a partner in the DoD world and have done so for more than 10 years on more than 100 projects in 13 states and overseas.

Our capabilities on military installations range from aviation, 1391 preparation, design-build, stormwater, site civil design, transportation, heavy utility, environmental, and landscape architecture as well as many other types of civil engineering. Whether it is providing excellent client service through one of our Indefinite Delivery Indefinite Quantity task orders, or being extremely responsive and flexible to the requests by the end user, or partnering with others to deliver Design-Build projects to support the mission, Kimley-Horn delivers successful, sustainable results to our DoD partners. Kimley-Horn has licensed professionals in all 50 states and more than 100 LEED accredited personnel.

Komatsu Architecture founded in 1959 by Albert S. Komatsu is in its 52nd year based in Fort Worth. As a unique Small Business, Komatsu Architecture has completed projects in 26 states and U.S. Trust Territories, and six foreign countries. Komatsu continues to provide services for public sector and community facilities, US federal agencies and institutional clients. We take pride in supporting the Department of Defense missions and our other US government agencies.

The firm has worked with the US Army Corps of Engineer Districts in Fort Worth, Tulsa, Kansas City, Huntsville, and Norfolk. Our DOD programs have also been with the Navy – SOUTHDIR, LANTDIR, SOUTHWESTDIR, and PACDIR engineering commands. Our DOD non-MILCON clients include: the Defense Commissary Agency (DeCA), the Army Air Force Exchange Service (AAFES), and the Navy Exchange Command (NEXCOM). We are currently involved with an active IDIQ with the General Services Administration (GSA) and its federal clients, such as the Department of Homeland Security and the Federal Emergency Management Agency. Komatsu Architecture has also provided master plan and design services for the VA National and State Cemetery Systems in Texas, Oklahoma, Hawaii and Ohio and helped establish the Veterans Administration Design Criteria and Specification for their national cemetery system.

Current assignments include CONUS and OCONUS installations at: Fort Lewis, WA; Eglin AFB, FL; Fort Bliss, TX, Guam CNMI, Fort Eustis, VA, and Kadena AB on Okinawa. We will also begin planning for a renovation to our original 1995 design-build commissary facility at Schofield Barracks in Hawaii, and an expansion to our original 1991 design-build Commissary at Fort Eustis, VA. The Kadena AB Shopping Mall at 320,000sf is second in the AAFES world-wide system in square footage only to the firm's design-build program for the Mall at Pearl Harbor (360,000sf, \$62m), NEXCOM's largest and most successful store. Our total design-build experience for in-place construction value will exceed \$300m accomplished as a Small Business.

We are proud that Albert Komatsu, a Fort Worth Post SAME Fellow, at 85 is the post's oldest living founding member.

We LISTEN carefully to fully understand your needs.

We BUILD a strong design concept to meet the project requirements.

We LEAD the team throughout the entire process, taking full responsibility for the project.

LBL Architects has operated continuously since 1965 in Arlington, Texas, specializing in institutional projects. The firm is registered with the CCR as a "small business" and is dedicated to personal service.

The firm's experience has been primarily in Healthcare, Schools, Churches and Government facilities. LBL has successfully completed over 600 projects all over Texas and parts of Oklahoma, including projects as large as 300,000 square feet.

Notable projects include the Arlington Public Library, UTA Fine Arts Building, Wet-n-Wild Water Park (now Hurricane Harbor), Farmers Branch Recreation Center, James Bowie High School, South Arlington Police Service Center, Arlington Animal Service Center, and Tarrant County Subcourthouse in Arlington.

Representative clients include JPS Health Network, Department of Veterans Affairs, Texas Health Resources, Tarrant County, City of Arlington, City of Colleyville, City of North Richland Hills, City of Watauga, Arlington ISD, Fort Worth ISD, Dallas ISD, Bryson ISD, The Hills Church of Christ, Glenview Baptist Church and Ash Creek Baptist Church.

The firm provides a full range of Architectural and Engineering Services. All aspects of design and construction services are available according to the needs of the Client.

- **Pre-Design Services** - Site Evaluation, Programming, Facilities Assessments, Total Cost Budgeting, Code & Zoning Previews
- **Design Services** - Land Planning, Master Planning, Architectural Design, Construction Documents, Interior Design
- **Construction Administration Services** - Construction Contract Selection, Bid Processing, Construction Administration, Warranty Review

EXCELLENCE BEYOND EXPECTATIONS

Strong client relationships have helped LEO A DALY become a leader in the design of the built environment, and one of the largest planning, architecture, engineering, interior design, and program management firms in the world. Since 1915, we have had an unyielding focus on design excellence to create exceptional spaces that enhance and enrich the human experience.

Our privately held practice has more than 900 design and engineering professionals in over 30 offices worldwide. Lockwood, Andrews & Newnam, Inc. (LAN), our civil engineering brand, extends our capabilities in engineering, infrastructure consulting, and program management.

Our diverse portfolio includes projects in a wide range of markets in more than 75 countries, all 50 US states, and the District of Columbia. LEO A DALY's client base includes public, private, and institutional organizations in a large number sectors. We have won over 350 design awards, more than 40 of which have come from federal agencies.

LEO A DALY offers comprehensive services in a number of functional areas. The wide range of experienced professionals on our staff allows us to form multidisciplinary teams that work with creativity and flexibility to best meet the unique needs of each project.

We are experienced with design-bid-build, design-build, construction management, developer leaseback, and integrated project delivery methods. We currently have more than 20 prime IDIQ contracts supporting a variety of federal agencies, to include a number of USACE Districts, with awarded capacity greater than \$275 million.

MACTEC and AMEC have combined our skills and strengths for a great future for our companies and our clients. We have joined together to improve delivery for our customers through enhanced capabilities, improved geographic coverage and access to the resources of a global organization. MACTEC's 70 offices complement AMEC's 90 existing locations in the U.S., giving the combined company a critical mass across the nation and resources around the globe. In North America alone this means about 14,000 employees in total.

Combined, AMEC and MACTEC hold contracts with every branch of the military, and most recently the Fort Worth District of the Army Corps of Engineers awarded AMEC a multi-million-dollar indefinite delivery/indefinite quantity contract for a broad range of remediation and environmental consulting services.

Under the AMEC banner, we look forward to serving our government clients with quality, timely and cost efficient engineering services. To find out more information about our Federal contract vehicles and capabilities, please visit our web sites at www.mactec.com and www.amec.com or contact any of these representatives: Dallas representative and Operations Manager Ryan Smith at rsmith@mactec.com; Texas Area Manager Sam Watson at smwatson@mactec.com; Air Force Sector Leader Scott Streifert at scott.streifert@amec.com; or El Paso Manager Jamie Barnes at Jamie.barnes@amec.com.

Internationally, AMEC is a focused supplier of high-value consultancy, engineering and project management services to the world's oil and gas, minerals and metals, clean energy, water and environmental sectors. With annual revenues of almost US\$5 billion, AMEC designs, delivers and maintains strategic and complex assets for its customers. The company employs more than 25,000 people in around 40 countries worldwide.

“I have attended every national since 1996. It is always a great opportunity for seeing old acquaintances and making new ones learning of new processes as well as marketing opportunities. This year I kept looking for an old friend from Germany. Finally on the last day I found him and it was great to see him again. He is 89 and said he would attend one more before hanging it up. So Lord willing I will see him in St Louis next year.” – *J.B. West, Halff Associates, Inc.*

“JETC Grapevine was very well orchestrated; loved the ice-breaker extra-curricular trip to the basement. Good recognition to sponsors and award winners!” - *Mr. L. Lynn Pruitt, P.E., Stanley Consultants, Inc.*

“Excellent conference planning . . . how many other posts could seamlessly work in an icebreaker team building event/no cost technical tour like a tornado warning with evacuation to the tunnels of the Gaylord Texan” – *Robert P. Morris, Jr., PE, PMP, USACE Fort Worth Engineer District*

“The Fort Worth Post did an outstanding job in hosting the JETC. The Gaylord Conference Center proved once again it is an excellent venue for holding an event like this. I especially enjoyed the Young Member, NCO, and Fellows Mentoring Event before the Ice Breaker. It turned out to be a lot of fun and a rewarding experience. Well done.” - *Bill Pearson, Weston Solutions, Inc.*

SAME VISION

“To be a premier global engineering organization leading to the professional and personal growth of all members in support of military readiness and the development of solutions to national security challenges.”

SAME MISSION

“To promote and facilitate engineering support for national security by developing and enhancing relationships and competencies among uniformed services, public and private sector engineers, and related professionals and developing future engineers through outreach and mentoring.”

GREET THE TROOPS

Wednesday July 13th 8:00 am.

(If you'd like to participate with us and receive an update that morning on the arrival time please email melonimcdaniel@beckgroup.com and she'll send out the approximate time to everyone).

DETAILS FROM THE WEBSITE

All are welcome to come and participate in Welcome Home a Hero. To learn of flight arrivals, call this recorded message 972.574.0392 after 8 p.m. at night. It will inform you of the arrival time. ** At this time, the flights are scheduled to arrive around 8:00 a.m. each day.. The Military does their best to keep us informed. You will want to check the recording several times in the morning before coming to the airport. Presently, the Troops arrive at Terminal D, door 22 (International Arrivals). You will not be going through security! You will park directly across from the entrance in two hour parking and Parking Passes will be issued as you enter. If you use your toll tag at the booth, the vouchers WILL NOT work, so please get a ticket. Vouchers are issued for each driver.

Members of all ages welcome here!

ABILENE FIELD POST

TBD

MEETING MINUTES

SUBJECT: Minutes of SAME Fort Worth Post Board Meeting

- The Board convened on 6 June 2011 with Roxanne Pillar, Sarah Cole, Angie McCullough, Meloni McDaniel, COL Lem DuBose, Andy Cueto, Greg Vowels, Mike Doris, Lisa Monroe, Mark Simmons and Jimmy Baggett attending.
- Minutes of the 2 May 2011 Board meeting were approved.
- The treasurer report indicates a balance of \$7,539.09 in the checking account and \$13,729.43 in a savings account. Total operating assets for the Post \$21,268.52. The Raymond Losornio Memorial Scholarship Fund inviolate principal is \$87,000.00. The Education and Mentoring Account has been invested with a balance of \$109,849.87. The total Post Education and Mentoring Assets are \$150,297.85.
- Individual membership is 694 with 253 members not included in our 114 Sustaining Firm membership. We currently have 63 Young Members.
- Committee reports were presented. Meloni McDaniel reported on Young Member activities. Eric Canales submitted his report on Communications Committee activities. Andy Cueto reported on Program Committee activities. Lisa Monroe reported on Awards activities and several new streamer criteria changes for 2011. COL Lem DuBose reported on Education Committee activities. A relationship with Diamond Hill-Jarvis High School has been initiated. Greg Vowels, Mike Doris and COL Lem DuBose will pursue an Abilene Field Chapter potential. Readiness Committee will assist in the arrangement of a hurricane table top exercise on 13 June. Activities for the 2011 National JETC activities were discussed. Mike Doris made a motion that a Fort Worth Post coin be designed for commemorative usage. Seconded by Andy Cueto. Motion carried.
- Young Member Committee reported that a tour is planned for July.

DEDICATED TO THE NATIONAL DEFENSE

Jimmy D. Baggett, Post Secretary

REGISTRATION NOW OPEN
MISSOURI RIVER TEXOMA REGIONAL CONFERENCE
“2020 VISION AND BEYOND - FOCUS ON THE FUTURE”
AUGUST 23-25TH, 2011

The Greater Kansas City Post is pleased to host the Missouri River TEXOMA Regional Conference this summer. The event will be kicked off Tuesday, August 23rd with a golf tournament and icebreaker social that evening.

Help the Post celebrate 80 years of tradition in excellence. This is a fabulous opportunity to build personal relationships, expand individual knowledge, or increase company visibility. Look forward to a full educational and technical program including Federal Program Briefings in the region.

Registration is now open at http://www.goeshow.com/same_kansas/TCA/ereg181329.cfm?clear.

Sponsorships and Exhibit Space

There are many options available for registering as a conference attendee as well as other activities. Sponsorship opportunities and exhibit spaces are now available using Eshow. Please visit the Greater Kansas City Post website at www.samekc.org and click on the Missouri River Regional Link for a complete list of registration instructions, menu selection for sponsorship/exhibit space, directions, and other event details as they become available.

For registration questions please contact:
