“THE WARRIOR GROUP”

Judd Presley will present an overview of Warrior Group, discuss the impact that the SBA Program had on Warrior Group’s success in the construction industry and how Warrior uses that success as a platform to give back to the community and other small businesses. He will share news on the Warrior Group of today and look into the future of the organization.

MEETING DETAILS
September 6, 2011

RSVP by September 1

TIME:

- 10:30 a.m. Board Meeting
- 11:30 a.m. Registration
- 12:30 p.m. Lunch and Program

LOCATION:

Carter & Burgess Plaza Bank Building Petroleum Club | 40th Floor
777 Main Street | Fort Worth, Texas

COST:

- \$25.00 Full Buffet
- \$20.00 Young Members

PARKING:

- \$2.50 On-Site Parking (with validation)

RESERVATIONS:

Angie McCullough | 817.284.9400
AMccullough@CMJengr.com

Please remember the guidelines regarding reservations. If you make a reservation, you are required to pay for your meal.

SAME Fort Worth Post is now on Facebook!

Society of American Military Engineers - Fort Worth Post

Fine print...

Each firm will be featured in the month indicated on the schedule above. Prior to the month in which your firm will be featured, you will submit an article for the newsletter describing your firm and its capabilities and experience.

In addition, each firm will be entitled to make a two minute presentation at the regular meeting. Historically firms have chosen to bring a raffle prize (benefiting the SAME Scholarship Fund) to the meeting when they make a presentation.

Atkins, a wholly owned subsidiary of WS Atkins plc, is a multidisciplinary A-E firm and leading provider of A-E consulting services. Established in 1938, Atkins has become one of the largest international design and engineering consulting firms, with offices across the United States, Europe, the Middle East, and Asia Pacific. Our experience in the most vibrant markets in the world allows us to deliver the best, most up-to-date technical solutions to our clients' by sharing expertise and knowledge on a worldwide scale.

Although we are a large firm, Atkins understands the vital importance of being "local" — of having deep roots in the communities in which we live and work. In the United States, our experience and office network span the nation and more than half a century. Our understanding of local requirements, practices, and culture allows us to be true partners with our clients. Over 85% of our business is from repeat clients.

Atkins' primary practice areas in the US encompass engineering (including civil, environmental, mechanical, electrical, plumbing, fire protection, and structural), transportation (including aviation), planning, construction management, program management, environmental science, geomatics, architecture, landscape architecture, emergency management, asset management, and information technologies. Our clients represent a mix of both the public and private sectors and include regional, state, and federal agencies; counties and municipalities; development companies; airports; energy providers; toll road agencies; and contractors.

Our ongoing success is based on the recognition that client satisfaction is paramount. Committed to helping lead the charge for a low-carbon economy, we assist our clients in fulfilling the social and practical challenges of an environmentally conscious world.

We are widely noted for the high caliber of our technical professionals and our comprehensive capabilities in key markets. This is reinforced by our efforts to provide our professionals with an environment that promotes continuous learning and quality improvement and our goal of increasing diversity in both our workforce and leadership.

For more information, please check out our [websites at www.atkinsglobal.com/northamerica](http://www.atkinsglobal.com/northamerica) or www.atkinsglobal.com; or contact Emmett H. (Lem) Du Bose, Jr., PE at 972.588.3213.

POND, founded in 1965, and headquartered in Atlanta, GA is a progressive, full-service architecture and engineering consulting firm providing architecture, engineering, planning, construction and construction management services to government, corporate and private sector clients throughout the U.S. and globally.

POND's staff of 200+ professionals provides a deep bench of experience to offer personalized solutions to help clients manage projects from concept to completion – and everything in between - with confidence and clarity. Our full-service capabilities and dedication to service offer clients the experience, expertise and responsiveness that make us leaders in the industry. In fact, the most significant indicator of our commitment to clients is that 80% of our business comes from repeat clients!

With emphasis on LEED® Sustainable Design and Strategic Energy Initiatives including energy assessments, audits and renewable energy, POND designs and manages more than \$200M in construction of new and renovated facilities each year. More than 30% of POND's staff are LEED® Accredited Professionals.

Federal/Military Facilities Project Types

As one of America's largest independent testing firms and the nation's fourth largest consulting engineering firm, Professional Service Industries, Inc. (PSI) brings extensive experience in providing professional engineering and materials testing services for clients locally and throughout the nation.

With over 100 locally based professional and technical staff personnel supporting 5 DFW area offices and additional personnel at 19 other offices throughout the state, PSI has the resources to meet even your unanticipated project needs. Additional national resources are also available from PSI's network of 125+ offices located in over 40 states. Our in house capabilities include geotechnical engineering/drilling services, construction materials testing and inspection, environmental site assessments, environmental drilling and monitor well installation, lead-based paint and indoor air quality testing, asbestos consulting and testing, roof consulting and inspection services and analytical chemistry testing.

We are proud to note that PSI was ranked #1 by DISD on the basis of qualifications!

Please contact Mr. Mitch Cribbs at PSI for all of your engineering consulting needs at 214.330.9211.

RS&H, an employee owned full service A&E firm, employs a staff of approximately 800 at 34 offices throughout the United States. RS&H has five Texas offices - located in Dallas, Houston, Austin, Amarillo and San Antonio. Engineering News Record has continuously ranked RS&H in the top 100 A&E Firms and Top 50 Architecture Firms.

RS&H has a 70-year history of providing service to Army, Navy and Air Force clients for a wide variety of defense projects at facilities worldwide. RS&H, through its Aerospace and Defense program, is a single source for comprehensive project Architectural and Engineering Services to the Department of Defense. Our efficient integrated design process supports new construction and alterations or repairs for a wide variety of defense infrastructure projects through traditional design contracts, Indefinite Delivery/Indefinite Quantity A/E Services Contracts, Design/Build partnerships, as well as Multiple Award Task Order Contracts and Multiple Award Construction Contracts.

Our design team includes licensed Architects and Professional Engineers of all disciplines, Certified Energy Managers and Certified Commissioning Authorities, registered fire protection engineers, Registered Communications Distribution Designers, and specialized LEED Accredited Professionals. RS&H is also a member of the International Building Code Council and the US Green Building Council. Our design teams have extensive experience implementing the Unified Facility Guide Specifications, Tri-Service A/E/C CADD Standards, 3D visualization (BIM) and the Guiding Principles Federal Leadership in High Performance Sustainable Buildings.

Our experience includes force protection studies and designs, master planning, energy analyses, commissioning and retro-commissioning, facility condition surveys, life safety and fire protection evaluations and designs, cost estimating, and base utility system repairs and expansion.

RS&H Aerospace and Defense is actively supporting USACE locally as a design partner on several Fort Worth District large and small business Design/Build MATOCs and through direct A&E services. Within Texas, RS&H provides design and consulting services to NASA, GSA, DeCA, the Exchange, AFCEE, the Texas Adjutant General and NAVFAC at multiple federal installations. Additionally, RS&H has an extensive design program supporting the aviation, transportation, commercial building and education sectors in Texas. For more information, contact Larry Sansone at 210.422.7592, larry.sansone@rsandh.com and visit us on the web at www.rsandh.com

Rolf Jensen & Associates, Inc. (RJA) provides fire protection and life safety consulting services for projects under the United States Army Corps of Engineers (USACE), Naval Facilities Engineering Command (NAVFAC), Air National Guard, Air Force and other Department of Defense agencies around the globe. Our engineers are proficient in the application of the Unified Facilities Criteria (UFC) 3-600-01, Fire Protection Engineering for Facilities, which requires the services of a registered fire protection engineer during both the design and construction phases of all military projects. In addition to helping our clients meet these government mandates, our staff is equipped to provide timely and cost-effective consulting solutions that satisfy the life safety needs of the project.

At RJA, we understand that our value is not just fulfilling a role as the required fire protection engineer Designer of Record (DOR), but in providing solutions that positively impact the budget while keeping the project on schedule. Our experience working on the design, construction and renovation at facilities across the United States allows us to uniquely understand the needs of the designbuild military market. Our staff is well versed at providing our clients with key support during the proposal, design and construction phases. For instance, as design-build partners RJA understands the need to correctly calculate height and area limitations to determine minimum construction type and to critically review water supply data to determine the true need for fire pumps. Both of these items are addressed in the proposal phase, when they may impact whether our team wins the project.

Founded in 1969, RJA is recognized as the world's leading fire protection engineering and life safety consulting firm. The firm opened offices in DFW in 2001 and has worked on major new construction and renovation/addition projects for the military all over the globe.

Services we provide but are not limited to include:

- Fire/Life Safety Code Consulting
- Fire Sprinkler System & Standpipe System Design
- AFFF/Hi-Ex Foam/Clean Agent System Design
- Fire Alarm & Mass Notification System Design
- Fire Pump & Water Supply System Design
- Thorough Construction Support

Contact our local office today at (469) 443-7200 or visit us on the web at www.rjainc.com

SAIC is a FORTUNE 500® scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world, in national security, energy and the environment, critical infrastructure, and health. The company's approximately 41,000 employees serve customers in the U.S. Department of Defense, the intelligence community, the U.S. Department of Homeland Security, other U.S. government civil agencies, and selected commercial markets. SAIC had annual revenues of \$11.1 billion for its fiscal year ended January 31, 2011.

Building Strategic Small Business Relationships

SAIC continually strives to foster relationships with small businesses. The company also mentors and provides training to these firms, helping them grow and fostering deeper relationships that result in enhanced customer offerings. In Government Fiscal Year 2010, SAIC subcontracted over \$461 million to VOBs and exceeded the statutory 3% goals for service-disabled veteran-owned small businesses for the fourth consecutive year. SAIC received an Honorable Mention for the 2011 Best Corporations for Veteran-Owned Businesses (VOB) by Vetpreneur magazine, which is published by the National Veteran-Owned Business Association (NaVOBA). The company has been named one of the 10 Best U.S. Corporations for VOBs five times in past seven years.

Leaders in Energy and the Environment

With increased pressure on budgets and installation resources, SAIC understands that only firms with a fully integrated approach to Energy, Environment, and Infrastructure will meet our customer's needs.

With approximately 3,000 environmental and energy professionals, SAIC maintains a network of over 50 offices across the U.S. and in Canada whose primary services include Energy, Environmental, Infrastructure DesignBuild, and A-E Services. Annually we execute multiple contracts and task orders ranging from large nationwide technical support programs to regional support projects for strategic clients.

SAIC is global in reach and proven capable of execution of multiple geographically diverse projects. While we are a global company through our 50+ nationwide environmental offices, we have developed the ability to partner closely with our customers and forge strong relationships with the state and local regulatory community, providing expertise and knowledge about local regulations and environmental conditions.

For more information, visit www.saic.com.

SpecPro Environmental Services LLC, (SES), specializes in design and/or construction, construction management, and environmental construction and remediation, primarily for Department of Defense clients. The company is headquartered in Oak Ridge, Tennessee, and has additional offices in California, Florida, Georgia, Illinois, Texas and Virginia to support work that we are performing across the nation. SES is also working overseas, notably at air force bases in Japan, South Korea and Guam.

In recognition of SES's performance on an ARRA fast-track project at the NASA Johnson Space Center, SES was awarded the JSC 2011 Small Business Prime Contractor of the Year Award in a ceremony held in Houston earlier this year. The project called for the design and build of a replacement hangar at Ellington Field and to repair a barge dock: both facilities were destroyed during Hurricane Ike in 2008. The new hangar – designed to withstand 140 mph winds – services the NASA Super Guppy, WB-57 and T-38 aircraft, and functions primarily as a wash facility. At the JSC barge dock, clean-up of debris and repair, replacement and restoration activities were completed one month ahead of schedule and this project was applauded for timeliness in addition to quality and price. Receiving the award were SES Project Manager, John Kohli, and SES President and CEO, Basil Skelton.

If Stanley Consultants were a person, he would be wise and well traveled. A persistent and creative problem solver, poised to undertake the next engineering challenge with gusto. As our centennial celebration approaches, Stanley Consultants – the company – proudly exhibits each of these qualities through the fine work of our members.

Stanley Consultants provides program management, planning, engineering, environmental and construction services worldwide. Recognized for our commitment to client service and a passion to make a difference, we bring global knowledge, experience and capabilities to serve clients in the federal, energy, water, and transportation markets.

US Office Locations: *17 across CONUS*

OCONUS Locations: Africa, Asia, Europe, Middle East, U.S. Territories and Possessions

Capabilities: Energy and Power; Airfields; Buildings; Utility Systems; Water Resources; Water/Wastewater; Value Engineering; Program Management; Ecosystem Restoration; Highways and Bridges; Dams and Levees; Commissioning / Retro-Commissioning; Infrastructure

Recent USACE Civil Works Projects:

- Technical Support to Rock Island District for award-winning Cedar Rapids (IA) flood damage risk reduction project
- Environmental Assessment for Fargo-Moorhead, North Dakota flood risk reduction project for St. Paul District
- Multi-year support to RINOS Team to develop New Orleans & Vicinity hurricane risk reduction on West Closure Complex, Western Tie-In, Algiers, and Eastern Tie-In projects for Rock Island and New Orleans Districts
- Periodic Mainline Levee Inspection of 275 miles of the Mississippi River for Vicksburg District

Stell Environmental Enterprises, Inc. (SEE) is an 8(a), woman-owned SB headquartered in the Philadelphia metropolitan area, with office locations in Austin and El Paso, Texas; Fredericksburg, Virginia; and Seattle, Washington. SEE also maintains project offices at federal facilities in numerous locations across the nation. Since incorporation in 2004, SEE's growth has been consistent and measured, resulting in financial stability and current contract capacity approaching \$20 million.

In our restoration, compliance, planning, and technical services practices, SEE provides AE and professional environmental services from NEPA and cultural and natural resource surveys and assessments to remedial and munitions investigations. SEE's understanding of military missions allows us to recommend and implement comprehensive solutions for installation clients. SEE provides client site program support to Army installations in the areas of NEPA support, cultural and natural resource management, environmental compliance, pollution prevention, range sustainability and integrated training area management, and facility management.

SEE currently holds ten competitive and sole-source prime contracts with the U.S. Army Corps of Engineers Districts, including Fort Worth and Tulsa, and other DoD agencies. Support is also provided as a subcontractor team member on at least a half-dozen contracts nationwide with large business partners, including two recently awarded Fort Worth District ERS contracts. SEE holds an A-E HTRW services contract with the Fort Worth District. Since 2006, \$9 million of \$10 million in total capacity has been provided in support of 30 task orders. Of the 19 TOs that have received ACASS ratings, 95% have been "Exceptional" or "Very Good."

SAME FT. WORTH HAPPY HOUR with the GSA!

Here's your chance to meet and get to know Colonel Charlie Hart and Colonel Jim Weller of GSA. Colonel Hart is GSA's Director of Global Project Management, Greater Southwest Region. Colonel Weller is GSA's Regional Commissioner, PBS Region 4 and 7.

When:

Tuesday, September 27th

Time:

5-7pm

Where:

Fox & Hound Pub (Upstairs Private Room)
603 Houston Street, Fort Worth, TX 76102

Price:

Free for the Young Members who RSVP (age 36 and younger, per National's rules).
All other members \$10.

Eats:

Appetizers and two drink tickets are included in the price.

RSVP:

melonimcdaniel@beckgroup.com or call 214.303.6428

PROJECT TOUR

Curious about the DFW Connector project taking place on the North end of DFW airport? Join us for a tour of the project on October 20th! More details to follow but mark your calendars now!

ABILENE FIELD POST

TBD

MEETING MINUTES: 1 - AUGUST - 2011

SUBJECT: Minutes of SAME Fort Worth Post Board Meeting

- The Board convened on 1 August 2011 with Roxanne Pillar, Meloni McDaniel, COL Lem DuBose, Andy Cueto, Lisa Monroe, Eric Canales, LTC Matt Orenstein, Jodi Davis, Sarah Cole, Greg Vowels, , Cristina Criado, Enrique Garcia, Mark Simmons and Jimmy Baggett attending.
- Minutes of the 5 July 2011 Board meeting were approved.
- The treasurer report indicates a balance of \$6,682.16 in the checking account and \$116,688.71 in a savings account. Total operating assets for the Post \$123,370.87. The Raymond Losornio Memorial Scholarship Fund in violate principal is \$87,000.00. The Education and Mentoring Account has been invested with a balance of \$108,797.35. The total Post Education and Mentoring Assets are \$149,590.27.
- Individual membership is 693 with 259 members not included in our 116 Sustaining Firm membership. We currently have 62 Young Members.
- Committee reports were presented. Meloni McDaniel reported on Young Member activities. Eric Canales reported on Communications Committee activities. Jodi Davis reported on Small Business activities. Andy Cueto reported on Program Committee activities. Lisa Monroe reported on Awards activities. COL Lem DuBose reported on Education Committee activities. A relationship with Diamond Hill-Jarvis High School has been initiated. A video has been produced for use at University forums. Greg Vowels, Mike Doris and COL Lem DuBose are pursuing an Abilene Field Chapter. A motion was made by Andy Cueto, seconded by Mark Simmons to have Fort Worth Post SAME establish a Scholarship Endowment at the University of Texas Arlington. After discussion no vote was taken on the motion. Eric Canales presented the Nominating Committee slate of Officers and Directors for 2012.
- Young Member Committee reported that a tour is planned for October to the DFW Connector site.

DEDICATED TO THE NATIONAL DEFENSE

Jimmy D. Baggett, Post Secretary
